## Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the prior art of record neither teaches nor renders obvious all of the claimed limitations including measuring during a first pressing cycle or a plurality of pressing cycles at least one characteristic value representative of the lining property of the friction linings; and controlling the manipulated variable in dependence on the at least one measured characteristic value of the current pressing cycle, the subsequent pressing cycle, and or the subsequent pressing processes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

- 2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following patents teach the state of the art of compression molding friction linings: Yasuda et al (USPN 5182061); Leinweber (USPN 4968468); and Kaufman et al (USPN 4432922); and Braund et al (GB 2328640A).
- 3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to EDMUND H. LEE whose telephone number is 571.272.1204. The examiner can normally be reached on MONDAY-THURSDAY FROM 9AM-4PM.
